PROFESSIONAL SUMMARY

Motivated and detail-oriented 3rd-year Bachelor of Science in Computer Science student at Cavite State University Bacoor City Campus. Possesses foundational knowledge in web and software development gained through academic projects. Eager to apply technical skills, learn from industry experience, and contribute positively to organizational goals during internship training.

EDUCATION

BS Computer Science **Sep 2024 – Present**
Cavite State University

BS Computer Science **Sep 2023 – Jun 2024**
Asian Institute of Science and Technology - Dasmariñas

Science, Technology, Engineering, and Mathematics (STEM) **Aug 2021 – Jul 2023**
South East Asia Institute of Trade and Technology

SKILLS

- **Languages:** JavaScript, Python
- **Frontend:** HTML, CSS
- **Databases:** MySQL
- **Tools:** Git, GitHub, Figma

PROJECTS

Unnamed Fantasy: A Promise Kept — Full-Stack Game Development Project (Godot 4)

- Developed a visual novel and action-RPG hybrid using Godot 4
- Designed modular gameplay systems for health, economy, affection tracking, and day progression using autoload singletons.
- Implemented JSON-based multi-slot save/load functionality and signal-driven communication between game systems.
- Created branching narrative events and relationship mechanics using Dialogic 2 and custom game state management.

Queuing System

- Designed and engineered a full-stack, web-based Queueing Management System to streamline traffic flow and reduce customer wait times for business establishments.
